

Giving Indiana Funds for Tomorrow (GIFT) Phase VII

Community Leadership Large-Scale Funding Opportunity

Lilly Endowment has invited 17 Indiana community foundations to advance to the next stage of its large-scale funding component of GIFT VII Community Leadership Grants. Through this component of GIFT VII, the Endowment has allocated up to \$31.6 million to encourage community foundations to develop and implement ideas that promote broader and more substantial impact in their communities.

These community foundations have proposed ideas that address a range of priorities, including neighborhood revitalization, arts and culture, quality of life, early childcare, education, and workforce development, among others.

The Endowment anticipates announcing large-scale funding opportunity grant awards later in 2020.
